

Shaker Mountain Wild Forest - Kane Mountain Trails

Kane Mountain (elevation 2,060 feet) can be ascended via two routes which can be used to make a loop hike. A fire tower is located on the summit. Kane Mountain East Trail is the most direct route, ascending 560 feet and 0.8 mile from the Kane Mountain Trailhead Parking Area to the summit. Kane Mountain North Trail descends 560 feet and 1.3 miles from the summit to the Kane Mountain Trailhead Parking Area. A 2.1-mile loop hike from Kane Mountain Trailhead Parking Area over the summit of and back to the trailhead can be made using the Kane Mountain North and East Trails.
